Teeter's Telescopes Teams with Zambuto Optical Company

Lake Hiawatha, New Jersey (13 August 09) – Teeter's Telescopes, LLC., proudly announces that they will be offering primary mirrors from Zambuto Optical Company (ZOC) as an option with their Ultra-Limited-Edition (U.L.E.'s) Truss-Dobsonian telescopes. ZOC's reputation in the astronomy industry is legendary and their work is regarded as among the best available. Teeter's Telescopes is pleased to offer the following apertures and focal lengths of ZOC Pyrex primary mirrors at the following prices for the duration of 2009:

Aperture and Focal Length*	Current Pricing for ZOC Primary
10" f/6	\$1,300.00
12.5" f/5	\$1,750.00
15" f/4.5	\$2,600.00
16" f/4.5	\$2,970.00
18" f/4.5	\$3,630.00
20" f/4.5	\$4,620.00
22" f/4.1	\$6,270.00

*Note: Additional apertures and focal lengths available upon request.

About Teeter's Telescopes, LLC.

Since 1998, Robert J. Teeter Jr. has been building custom made wooden telescopes, including an 8" f/6 Dobsonian which was presented with the 1st Place Award for Craftsmanship in the Junior Division of the Stellafane Telescope Making Convention. In February of 2002, *Teeter's Telescopes* was created as an outlet for Rob's telescope building obsession. Since that time, sixty-one (61) Teeter's Telescopes have been built and sold around the world and have included apertures from 8" to 20".
